

RESPONSE

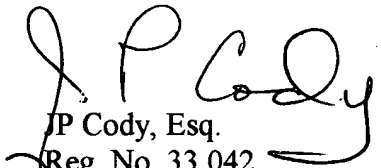

The Examiner's attention on this application is appreciated.

Pursuant to the Examiner's request, Claim 1 has been amended to clarify that the values 'n, m' are integer values. A complete copy of the claim as amended is attached hereto.

The general convention in digital signal processing is to utilize symbols 'i, j, k, l, m, n' as integer representations. These representations may be in lower or upper case. This general convention was observed in the selection of the symbols 'n' and 'm' in the application.

There being no further objections to the Application, the Applicant requests that this Application be put forward to issuance.

Respectfully Submitted,

JP Cody, Esq.
Reg. No. 33,042
Attorney for the Applicant
